Question: 7

Fill in the blank with the appropriate term.

An _____ wizard is a defined series of commands with specific settings and in a specific order that a user applies in a single step.

Answer:
actionwizard

Explanation: An action wizard is a defined series of commands with specific settings and in a specific order that a user applies in a single step. By using an action wizard, one or more routine sets of commands are applied to files, saving time and keystrokes. A user can apply an action to a single document, to several documents, or to an entire collection of documents. A user can even scan documents and merge several documents into a single PDF before running an action.

Acrobat helps in providing some predefined action wizards. Users can also create their own actions and can access and manage the actions by choosing File > Action Wizard.
