Answer: A,D,E

Question No : 6

A new customer wants to install the PMO Accelerator, a collection of content designed for project portfolio management, which is not tied to any specific industry. Which advice should you offer?

A. Install the CA Clarity PPM Solution Pack first because the installation will fail otherwise.
B. Only install it if you are not installing PPM Essentials Accelerator 2.0, which provides all the features of the PMO Accelerator and more.
C. Install it as part of your initial CA Clarity PPM deployment before making any modifications to the out-of-the-box (OOTB) CA Clarity PPM Studio content.

D. Wait until you customize the OOTB CA Clarity PPM Studio content because the PMO Accelerator installer program will configure the Accelerator to meet your specific requirements.

Answer: C

Question No : 7

CA Clarity PPM services in a cluster need to be able to communicate with each other. Therefore, you need to make sure that:

A. All application ports are the same.
B. The Beacon is turned off on all application servers.
C. The Beacon multicast addresses and ports are the same on each server.
D. The Clarity System Administration (CSA) is installed on all application servers.

Answer: A

Question No : 8

In which circumstance should you use a dynamic lookup?

A. When the user might want to reorder values in a list
B. When you want to display changing values from tables
C. When you want to perform multi-tiered lookups with a drill-down tree
D. When you want to set up a display mapping to associate a value with a description and a color or icon

Answer: B

Question No : 9

You can visually customize the CA Clarity PPM user interface using a Cascading Style Sheet (CSS). Which new benefit does CCS version 3 (CSS3) offer?

A. You can specify property values as simple expressions.
B. You no longer need to compress images because this will occur automatically.

C. You can represent an image in an encoded string instead of referencing the image on a file system.

D. You can assign names to rules, which enables you to use client-side scripts to reference the rule even if its selector changes.

Answer: C

Question No : 10

What is the main advantage of using an Oracle template to create the CA Clarity PPM database?

A. You can use the same template for various versions of UNIX and Windows.

B. You can avoid having to specify settings because settings are preconfigured.

C. You can avoid having to use the Oracle Database Configuration Assistant (DBCA) to create the database.

D. You can avail of help from CA Clarity PPM consultants because this is the only approach that CA Technologies supports.

Answer: B
