**Question: 3**

---

You need to configure the queue for telephone-based cases.  
 What are two possible ways to achieve this goal? Each correct answer presents a complete solution.  
 NOTE: Each correct selection is worth one point.

- A. Create a case from email.
- B. Define an SLA and entitlements and set entitlement values for case numbers.
- C. Configure a status reason transition.
- D. Create a case routing rule.
- E. Automatically create or update records.

---

**Answer: BC**

---

---

**Question: 4**

---

HOTSPOT

You need to configure the correct settings.

Which settings should you configure? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Scenario	Setting
Process cases for an insurance type once a type is selected.	<div style="border: 1px solid black; padding: 2px;"> <div style="text-align: right; border-bottom: 1px solid black;">▼</div> <div style="padding: 2px;">Case routing</div> <div style="padding: 2px;">Automatically create and update records</div> <div style="padding: 2px;">Create queues</div> </div>
Receive and process an email from a customer to open an insurance claim.	<div style="border: 1px solid black; padding: 2px;"> <div style="text-align: right; border-bottom: 1px solid black;">▼</div> <div style="padding: 2px;">Case routing</div> <div style="padding: 2px;">Automatically create and update records</div> <div style="padding: 2px;">Create queues</div> </div>
Ensure cases phoned in can be separated and taken only by the applicable representative.	<div style="border: 1px solid black; padding: 2px;"> <div style="text-align: right; border-bottom: 1px solid black;">▼</div> <div style="padding: 2px;">Case routing</div> <div style="padding: 2px;">Automatically create and update records</div> <div style="padding: 2px;">Create queues</div> </div>
