Question: 5

DRAG DROP

You need to meet the site requirements for the marketing department managers.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Answer Area
Select Sharing .	
Select the site collections.	
One the SharePoint admin center.	
Open the marketing department site collections.	
Configure the owners.	
Open Site Settings.	

Answer:

- One the SharePoint admin center.
- Open the marketing department site collections.
- Configure the owners.

Question: 6

You need to confirm whether the performance issues experienced by the HR department site collection are due to the large images.
What should you do?

- A. From Site Settings for the site collection, select Storage Metrics
- B. From Site Settings for the site collection, select Site collection health checks
- C. From the Microsoft 365 admin center, view the service status of SharePoint Online
- D. From Microsoft Edge, open the site. Run the developer tools

Answer: D

Explanation:

Scenario: Users in the HR department report performance issues affecting their site collection. You suspect that the issues are due to large images on the home page.

You can diagnose common issues with your SharePoint Online site using Internet Explorer developer tools.

There are three different ways that you can identify that a page on a SharePoint Online site has a performance problem with the customizations.

- The F12 tool bar network monitor
- Comparison to a non-customized baseline
- SharePoint Online response header metrics

Question: 7

DRAG DROP

You need to meet the technical requirements for the managers of the marketing department.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Answer Area
Select Sharing	
Open Site Settings	
Navigate to the marketing department site collection	
Configure the owners	
Select the marketing department site collections	
Open the SharePoint admin center	

Answer:

Answer Area

Open the SharePoint admin center

Navigate to the marketing department site collection

Configure the owners

Explanation:

Scenario: Ensure that the managers in the marketing department can view the storage metrics of the marketing department sites.

Question: 8

You need to configure the Yammer feed to meet the technical requirements.

What is the best way to achieve the goal? More than one answer choice may achieve the goal.

- A. Add a Contact Editor web part
- B. Embed a Yammer feed
- C. Add a Yammer web part
- D. Add a Yammer link

Answer: C

Explanation:

Question: 9

DRAG DROP

You have a Microsoft 365 subscription.

You need to prevent guest users from creating or updating channels.

How should you complete the PowerShell script? To answer, drag the appropriate options to the correct targets. Each option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Values	Answer Area
AzureAD	<code>Import-Module</code> Value
MicrosoftTeams	<code>Connect</code> Value
MsolCompanySettings	<code>\$team = Get-team</code>
SPOnline	<code>\$settings = Get-Value -groupId \$team.GroupId</code>
TeamGuestSettings	<code>if (\$settings.AllowCreateUpdateChannels -eq \$true)</code> <code>Set Value -GroupId \$team.GroupId -AllowCreateUpdateChannels \$false</code>

Answer:

Values	Answer Area
AzureAD	<code>Import-Module</code> MicrosoftTeams
MicrosoftTeams	<code>Connect</code> MicrosoftTeams
MsolCompanySettings	<code>\$team = Get-team</code>
SPOnline	<code>\$settings = Get-TeamGuestSettings -groupId \$team.GroupId</code>
TeamGuestSettings	<code>if (\$settings.AllowCreateUpdateChannels -eq \$true)</code> <code>Set TeamGuestSettings -GroupId \$team.GroupId -AllowCreateUpdateChannels \$false</code>

Question: 10

You need to minimize the number of documents returned during searches. The solution must meet the technical requirements.
What should you configure?

- A. Add a result source and prevent partial search results from being returned.
- B. Add a query transform to restrict results to certain document types.
- C. Create a crawled property for each document type.
- D. Create a managed property for each document type.

Answer: A

Explanation:
